### Children Cry

for PITCHER'S

## CASTORIA

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
H. A. ARCHER, M. D.,  
111 South Oxford St., Brooklyn, N. Y.

"I use Castoria in my practice, and find it specially adapted to affections of children."  
ALEX. ROBERTSON, M. D.,  
1037 24 Ave., New York.

"From personal knowledge I can say that Castoria is a most excellent medicine for children."  
DR. G. C. OSGOOD,  
Lowell, Mass.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

## R. B. LOVELL,

Dealer in Staple and Fancy

TELEPHONE COMPANY.

Messages promptly delivered. Maysville office at Parker & Co.'s livery stable.

## LOST SAILORS.

Not as Many Missing as at First Reported.

### QUITE A NUMBER SAVED.

The Disaster Along Newfoundland Coast Not as Bad as at First Reported—There is Now Only Eleven Men Not Accounted For—Terrible Suffering of Some of the Rescued Fishermen.

HALIFAX, N. S., March 5.—The steamer Conscript, which has just arrived from St. Johns, N. F., brings the following additional particulars regarding the dreadful calamity in Trinity bay, on the coast of Newfoundland by which so many sealers lost their lives:

On the morning of March 1 the schooner Rose Cleer arrived at Trinity, having on board the sixteen men who were saved and landed at Heart's Content, and the bodies of John Nurse and Solomon Penney.

The sixteen men, all of whom belong in English harbor with the exception of Patrick Hanlon and his three sons, got on some pan ice, seven feet high, Saturday night, and erected a shelter with some of their boats. The other boats were used in building a fire, and three seals, which they had captured, were also used for this purpose. The ice drifted into Heart's Content early Sunday morning, and the men walked ashore. One of their number, a young man, was frozen stiff when the fire was started, but he revived under the influence of the warmth thrown out by the blaze.

The sixteen men who were brought to Trinity are now all fully recovered, but William Ivany and his four sons remained behind at Shoal Harbor, on the south side of the bay, being so badly frost bitten that they could not board the schooner. Captain Fowling, of the Rose Cleer, saw fires in the direction of Norman's cove Sunday night but it was impossible for him to get his vessel there. It is hoped that others of the missing men are at that point. Eleven men are still missing.

The St. Johns Herald of Tuesday's issue says: "At first it was feared that over 300 persons were cast away, but only eleven are still missing and thirteen have died, making a total of twenty-four fathers and brothers who have succumbed to the blizzard of Saturday night."

### Mysterious Fire.

ST. LOUIS, March 5.—At 3:45 o'clock yesterday a tremendous explosion occurred in the storehouse of Marks B. Cohn, 2724 Chouteau avenue. The massive doors were hurled across the street, and the building considerably shaken. At the same time a great burst of lurid flames bulged out from the store windows and enveloped the building. Marks B. Cohn and his brother were in the store at the time of the explosion and were burned to a crisp. The police say the men were setting fire to the store in order to secure the insurance, which amounted to \$5,000. Gas and gasoline were the inflammables used.

### A Bride Suicides.

CHICAGO, March 5.—Mrs. Kate Brown, of 249 Rumsey street, killed herself Thursday night by putting three bullets into her brain. She was twenty-three years old, and was married to Martin Brown last Saturday by Justice Wilcox. When Mr. Brown returned from work Thursday evening he found her lying on the bed dead with a revolver in her right hand. Why the woman killed herself is not known, although she had threatened to commit suicide before her marriage.

### Explosion in a Mine.

SHENANDOAH, Pa., March 5.—A fatal explosion occurred at the Marea colliery mine yesterday. John Butt, a Russian miner, and David Roberts, aged forty-five, were engaged in boring a hole in a rock tunnel. While preparing a blast it suddenly exploded, hurling Butt against the side of the tunnel and killing him instantly. Roberts was also thrown, and his injuries are supposed to be fatal.

### Street Car Struck by a Train.

HUTCHINSON, Kan., March 5.—As a street car on Maine street was crossing the Rock Island railroad yesterday afternoon it was struck by a passing train and almost demolished. The five passengers in the street car were more or less injured, but none of them seriously. Driver Harrison received injuries which will prove fatal. Blame is attached to the driver of the street car.

### Rumored Jail Breaking.

ROCHESTER, N. Y., March 5.—A rumor has reached this city that Oliver Perry, the notorious train robber had escaped from Lyons jail. The report is generally credited here in view of the known cleverness of the desperate criminal. Messages of inquiry have been sent to Lyons in regard to the matter, but up to the present time no reply has been received.

### Destroyed the Cash Register.

ZANESVILLE, O., March 5.—Wiles' dry goods store, Munson's music store and Wursching's liquor store, were entered by burglars last night. They obtained \$1.66 at the first place, \$5 at the second and destroyed a \$200 cash register to obtain it. At Wursching's liquors and cigars to the amount of \$5 were taken.

### Got in Trouble.

PHOENIX, Ariz., March 5.—The entire edition of The Gazette was thrown out of the mails yesterday under the anti-lottery law for printing a brief account of the raffle of a prize piano at a store. Afterward the postmaster rescinded the order and passed the papers, but suit will be brought for their detention.

### OIL IN COURT.

How the Standard Surprised Some of Its Rivals.

ST. PAUL, March 5.—Judge Otis yesterday listened to an able and exhaustive legal argument on a purely technical subject. The matter involves the power of the state oil inspector and the liabilities of the persons and companies dealing in illuminating oils. The great oil corporations directly interested in this suit are the Standard Oil company, the Northwestern Star Oil company and the Independent Oil company, against which suit was brought by State Oil Inspector H. R. Willis to recover fees for the inspection of oil in tank cars on the track and also in storage tanks.

These are test cases. The sensational feature came when Attorney O'Brien announced to the court that so far as the Standard Oil company was concerned, they desired a uniform law, and he was convinced that the position of the state oil inspector, Willis, was the wise and just one, and he would be satisfied if the same rule were applied to all of the companies to abide by such a decision of the court. The other companies could not agree with this view and opposed it vigorously. A decision will be announced later.

### A BOY MURDERER.

He Horribly Butchers a Sleeping Baby.

COLUMBIA, S. C., March 5.—Last evening Addie Beacham left her seven-months-old baby sleeping in the house and stepped out. After she had gone Bud Harris, a little five-year-old negro boy, who lives next door, slipped in, carrying a bent and heavy piece of iron with a sharpened point.

He stole quietly up to the cradle and repeatedly brought the fearful, sharp-pointed weapon down on the skull of the sleeping infant, perforating its skull as if with an awl. He penetrated the child's ear several times. Seeing the blood spurt everywhere he fled to the yard. The child's mother having heard the baby's screams, rushed back to the house to find the infant saturated in blood and dying.

The boy murderer was found sitting on the ground at the front gate a perfect picture of innocence, digging holes in the ground with the bloody weapon. He frankly confessed the deed. In a verdict attributing the deed to Harris, the jury said that he could not be held responsible, on account of his age.

### SIGNS OF TROUBLE.

The Strike of the Panhandle Machinists May Be Renewed.

INDIANAPOLIS, March 5.—There are signs of trouble growing out of the machinists' strike at the Panhandle shops. Not that the men or strikers will make it, but some of the same class of thugs that did the damage in the street car strike threaten to take a hand. There are twenty-eight machinists at work at the shops, most of them new men. The company has in the yards a camp car, a sleeper and a dining car, where it is taking care of its men, and has a guard of section and track men, and company detectives to keep all persons off the grounds.

The story of the men is that one William Wilson, claiming to be a machinist from Parkersburg, has been acting in a very peculiar manner, and at last they accused him of being a spy, which, they said, he admitted. Thursday afternoon he made a violent speech to the men urging them to quit work, announcing that he would no longer work for the company, and, catching up a piece of iron, he went through the shops like a cyclone. Every one got out of his way and no one was hurt. He was given his money and ordered to keep off the company's grounds, but was not prosecuted.

### WITH COMPRESSED AIR.

Chicago's Cable Car System Likely to Be Supplanted by a New Invention.

CHICAGO, March 5.—Thursday evening the mystery was probably solved regarding the exceedingly liberal ordinance granting the practically unrestricted use of the streets of Chicago to a corporation almost wholly unknown, called the Chicago Power, Supply and Smoke-abating company. The announcement is now made that the object is to supplant the present grip and cable system for street cars by the use of compressed air, and that behind the nominal projectors of the enterprise are such men as Charles T. Yerkes of the north and west division street car companies; President Wheeler, of the city street railway company; James Cook, the Philadelphia banker, and Assistant Secretary of the United States Treasury General A. B. Nettleton.

### READY TO REVOLT AGAIN.

More Opposition Against the Brazilian Government in Rio Grande do Sul.

MONTEVIDEO, March 5.—Great opposition to the Brazilian government is reported from all the citizens of Rio Grande do Sul; 3,000 men are said to be in arms at Porto Alegre ready for action.

At Rivera, Argentine, Brazilian soldiers are said to be committing numerous robberies. They are reported to have killed several Argentines. The populace is said to have taken up arms and to be resisting the marauders.

From Corrientes, Argentine, comes word that the provincial troops have revolted, mortally wounding Commander Sotelo and one lieutenant. The insurgents are encamped outside the city.

### Bank Robbed.

COLD WATER, Mich., March 5.—Last night the Cold Water National bank was robbed. The safes were broken open and \$20,000 in cash taken. Also a private deposit of \$10,000 in the Philadelphia and Reading preferred bonds. Two thousand dollars reward is offered for the arrest of the robbers.

## REVIEW OF TRADE.

Weekly Report of the Condition of Business.

### HOROSCOPE FOR THE FUTURE.

A Slight Improvement in Some Lines. Two Million Dollars in Gold Exported Abroad—The Two Dark Spots on Trade Transactions—Active Speculation Failures.

NEW YORK, March 5.—R. G. Dun & Company's weekly review of trade says: Neither abroad or at home have more unfavorable conditions appeared during the past week. Foreign selling of American securities has diminished as the stock market has ceased to invite everybody to sell by its booming, but sterling exchange has yielded a little. For the moment gold exporting is less important, though during the week \$2,000,000 has been shipped or ordered for export, and meanwhile merchandise exports continue large, for February at New York \$5,500,000 greater than last year.

Domestic trade gradually improves, even at the south. Supplies of money are everywhere ample.

It is still the fact that the two dark spots are directly caused by over-production. Cotton receipts this week have been light, but the price is only 7.06 with moderate sales. Efforts to curtail the production this year appear to meet with some success. The only possible remedy for troubles in the iron trade is to be applied according to dispatches, by the closing of some furnaces in the Mahoning and Sheango valleys and the Chicago district.

Current prices are called about the lowest on record, southern iron being offered at \$15.75 to \$17 for No. 1, against \$15 to \$18.50 for northern; a contract for steel beams at 2.1 cents is reported from Boston, and bar shows no improvement, while plates are quoted at 1.85, and a sale of angles to the New York Central at 1.55. The rail combination still waits for buyers. The trouble in this industry is that too great and sudden expansion was expected. Copper is unchanged, tin weaker at 19.60 cents, and lead moderately active at 4.15. The coal market continues uncertain, as the combination is not ready to act, but agents recommend an output of only 2,500,000 tons in March.

A better situation appears in textile manufactures, for cotton mills are well employed and trade in cotton goods improves all over the country, even at the south. In woolen mills and in sales of wool decided improvement is seen. Wool is lower, as holders grow anxious to sell before a new clip comes. The spring trade in dress goods closes in good shape, while in men's woollens the right fabrics and colors to meet the taste sell rapidly. More demand is noted for black chevots. In boots and shoes there is much more activity, though the many buyers at Boston still act with reserve, and shipments are as yet 7 per cent. behind last year's to date.

At Philadelphia wholesale trade in dry goods is satisfactory, but iron is very low. At Baltimore the grain export trade is the largest ever known. All kinds of iron and steel are weakening at Pittsburgh and some puddling mills have closed, but glass is fairly active. Cleveland notes rolled iron active but weak, while improvement is seen in hardware, groceries and shoes, and the dry goods trade is good. The spring jobbing trade is fair at Cincinnati. Detroit notes fair jobbing trade, some lines exceeding last year's. At Chicago considerable increase over last year is seen in general trade, and receipts of dressed beef are four times, of wheat three times and of flour and oats double last year's, with increase of a third in rye and barley, a quarter in corn and some in cattle and cured meats, but decrease in wool, hogs and sheep.

At Milwaukee wheat receipts are 2,000,000 bushels, against 600,000 bushels last year; the flour output 177,000 barrels against 128,000 last year, and the lumber trade good, with jobbing trade largely beyond last year's; at St. Paul the jobbing trade is 50 per cent. to 65 per cent. greater than a year ago; at Omaha trade is quiet, and at St. Louis hindered by impassable country roads, though the spring outlook is very encouraging with the rapid movement of the corn crop; Kansas City reports increased sales over last year; Denver a fair trade, and Salt Lake a light business with slow collections; at Memphis trade is improving, and also at Montgomery, but at New Orleans the improvement is slight—cotton is weak, rice rather dull, but sugar in good demand.

Speculation has not been at all active. Wheat has declined half a cent, with small sales. Corn comes forward freely, but exports are heavy and the price half a cent higher. Pork products are a shade lower, but oil a quarter and coffee an eighth higher. The stock market has relaxed into great dullness.

The business failures during the past seven days, number for the United States, 208; Canada, 32. Total 240, as compared with 270 last week, 290 the week previous to the last and 265 for the corresponding week of last year.

### Minister Egan Not Coming Home.

WASHINGTON, March 5.—Inquiry at the state department fails to confirm the report telegraphed from Valparaiso that Minister Egan will return to the United States from Chili in April. It is said there that no knowledge exists of his having applied for a leave of absence, and there is no reason to believe that he is coming home under any conditions.

### Railroad Collision.

BERLIN, March 5.—An express train from this city, and a goods train collided yesterday at Bromberg. A driver, a stoker, and one passenger were killed and several passengers were injured.

### ENGLISH MINING TROUBLES.

Already a Million and a Half of People Affected.

LONDON, March 5.—In view of the threatened coal strike and coal famine that must surely follow, most of the factories in Lancashire, Cheshire, Durham, Tyneside and other important manufacturing districts are seriously considering the question of shutting down until the trouble is over. The operatives in these factories have been given the customary day's notice, and are greatly alarmed at the prospect of a period of enforced idleness. It is computed that already 1,500,000 people are directly or indirectly affected by the mining troubles, and it is believed that if the output of coal should be restricted for a fortnight, as proposed, there would be 1,000,000 idle mill operatives.

The prospect of a strike is especially alarming to the iron trade in Birmingham, and a majority of the iron works will be closed if there should be a stoppage of the coal output for more than a week. The companies in all large cities will be seriously affected, and, although they have large contracts running, the strike clause will release the colliery owners from their obligations.

In Sheffield there are very small stocks of manufacturing coal on hand, and much the same condition exists in the other great industrial centers. Of house coal the stocks, it is said, are very small everywhere.

The colliery owners are apparently determined to enforce the 10 per cent. reduction of the wages of the miners, and the latter, in some cases, appear equally determined to resist the proposed reduction. As yet no compromise seems possible, and every indication points to a strike being ordered by the miners' federation on March 12. If the strike is ordered it will continue for two weeks, at the end of which, the miners believe, the price of coal will be so high on account of the restricted output that the colliery owners will have no grounds on which to sustain the proposed reduction of wages.

### FRENZEL IN FULL CONTROL.

His Agreement with New Men Will Be Kept.

INDIANAPOLIS, March 5.—Judge Taylor has acquitted President Frenzel, of the street railway company, on the charge of contempt in failing to turn over property to the receiver. The court also grants the exception to the receivership, and restores Frenzel to full possession of the company's property. It remains to be seen what the brotherhood will now do. If Frenzel should relieve the men formerly discharged by him and re-employed by the receiver, another strike may ensue. Neither side is prepared to say what policy will be pursued, but meanwhile cars are running.

President Frenzel, of the street railway company, yesterday gave notice that all employees who desired to re-enter the service and who were in the service when the strike occurred will be taken back at the old wages. This is considered generous under the circumstances.

It, however, excludes the four men dismissed for cause, over whose dismissal the strike occurred, and is silent on the question of advanced wages demanded. Some brotherhood men say they ought to stand by the four. Others say they have enough. The brotherhood will decide tonight whether it will strike or not.

### All About a Baby.

INDIANAPOLIS, March 5.—Yesterday Mrs. Mary Craft was seen to place a bundle on the steps of a laundry building and a few moments later it was found to contain a baby. It was taken to the orphan's home where it died several hours later from exposure. The infant was not more than a day or two old. Mrs. Craft says that she was at Brazil Wednesday, and when about to board the train a woman handed her a basket with the request that she carry it into the car. When she boarded the train and looked around she found that the woman had not gotten on the train and subsequently she discovered that the infant had been palmed off upon her by that means. While Mrs. Craft bears a good reputation, no one believes her story.

### Two Brakemen Killed.

BIRMINGHAM, Ala., March 5.—A freight wreck occurred near Dansville, fourteen miles west of here, last night, on the Kansas City, Memphis and Birmingham. A work train was run into from the rear by a fast freight. The engine and several cars were demolished and two brakemen, whose names are unknown, were killed. Five other trainmen are reported hurt. A misunderstanding of telegraphic orders caused the wreck.

### Spared the Guilty Ones.

MADISON, Ind., March 5.—J. W. Pullam, of Adams county, O., after a pursuit of several days, Friday morning caught his runaway wife in the arms of her paramour, William Wood, of the same place. Wood left his own wife and brought his child along and Mrs. Pullam brought her two little boys. Pullam had a drawn revolver but spared the runaways and left for home Friday morning on the Sherley with his two little ones.

### Little Boy Injured.

CONNEYSVILLE, Ind., March 5.—Eddy, the ten-year-old son of Byron Mills, in trying to climb into a wagon, lost his balance and caught his foot in the wheel at noon, yesterday, twisting it at the knee in a horrible manner. Amputation is necessary.

### Searching for a Shortage.

MARTINSVILLE, Ind., March 5.—W. F. Foydyke and C. B. Lockhart began work on the books of the treasurer's office yesterday to discover the shortage of Charles Senton. The examination will extend back to 1884.

# EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
**ROSSER & MCCARTHY,**  
Proprietors.

SATURDAY, MARCH 5, 1892.

LOUISVILLE is keeping up her bloody record. Since January 1st, eight people have been murdered in that city.

The Legislators of many States have been suddenly seized with the notion that they want to hear Senator Hill read a speech. Strange how fast a craze spreads some times.

The Louisville Post, in its new dress and with its new editor, Colonel Bennett H. Young, is one of the brightest, neatest and newsmen's papers that comes to the BULLETIN office.

The returns from the New York elections this week indicate beyond a doubt that the Hill crowd, in killing off Mr. Cleveland have ruined their own prospects in the Presidential race.

The Glasgow Times is right when it says: "This is just as good a time as any to let New York know that she must march to Democratic music, or get out of the camp. Six times in the last thirty years has the Democratic party gone to New York for its standard-bearer, and five times have they gone down in defeat."

If any evidence of the disaffection in the Democratic ranks in New York were needed, look at the returns from the elections in that State this week. Elmira, Senator Hill's home, went overwhelmingly for the Republicans, the Democratic loss on the vote in late years being 60 per cent. If Hill can't carry his own home, he would make a nice out carrying the State next fall.

The latest information on the subject is that bounty on sugar to the amount of \$2,952,020 has been paid for the past season's crop. Of this sum citizens of Louisiana receive \$2,580,917. This bounty business is one of the wrongs foisted on the county by Republicans. Why should the corn-growers, tobacco-raisers, wheat-producers and other people of the country pay nearly \$3,000,000 a year to the sugar-makers of Louisiana or of any other State?

"AUDITOR NORMAN expresses the opinion that under the recent decision of the Supreme Court in the case of the Louisville Water Company, back taxes can be collected from Kentucky railroads claiming exemption since the passage of the Hewitt law in 1886," says the Courier-Journal. The amount due the State under this construction is about \$126,000. Maysville and Mason County come in for a handsome sum, also, from the C. and O. under the same ruling.

The Cincinnati Commercial Gazette published some lines yesterday from the Covington Extra, entitled "Sing a Song of Democrats." The complaint we wish to enter is against the C. G.'s crediting the Extra with being a Democratic paper. The simple fact of the matter is you can't tell one week how the Extra will stand politically the next week. It sits astride the fence and in one issue it climbs down on the Democratic side, and the next you hear from it it is over in the Republican camp. The editor of the paper seems to be as changeable as the March wind or the weather in this section of the country.

There are many queer and crooked things done in politics nowadays. The West Union Defender says: "Facts are fast coming to the surface which will go to show the institution called the Republican League of Ohio, which organized several subordinate lodges in Adams County, was led by a lot of gangsters whose prime object was to rob a lot of dupes throughout the State. At least \$10,000 was accumulated by the organization, and a row is now on as to who shall get the largest pull at the pile." The good Republican brethren who paid their hard cash had to take an oath to vote the G. O. P. ticket. The idea of Republicans paying to get into an organization sworn to vote the Republican ticket. The fool-killer is needed in Ohio.

## Historical Papers

Relating to the campaign in Virginia during the late war, no war correspondent ranked higher than General H. V. Boynton, and he has more than sustained his reputation in a series of historic papers relating to the plans of the noted war leaders and their struggles in Virginia and West Virginia. These papers in the language of Horace Greeley, "make mighty interesting reading." They can be obtained free by addressing C. B. Ryan, Division Passenger Agent, C. and O. Railway, Cincinnati, O.

When baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she married, she gave it to her children.

## SENATOR HILL INVITED.

Some of Kentucky's Law Makers Want to Hear Him Speak—Doings of the General Assembly.

Eight new bills were introduced in the House at Frankfort yesterday, as follows: An act to amend the laws governing the penitentiary of this State.

An act in reference to governmental agencies in cities of the first class.

An act requiring judges and examining courts to exclude from the court room in certain cases, children under sixteen years of age.

An act to repeal the local option laws of Muhlenberg County.

An act to provide for the laying of several counties off into magisterial districts.

A resolution by Mr. Spaulding to invite Senator David B. Hill to address the House, at such time as should suit his convenience, was adopted. There were three nays.

The Judicial Committee reported back the Goebel lottery bill and the substitute of the committee. Each was ordered printed and to its second reading.

Dr. Woods submitted a lengthy report on the subject of quadrennial assessments of real property, and the resolution requesting the Revisory Commission to report a bill carrying out this idea was adopted. One thousand copies of the report were ordered printed.

In the Senate, Judge Lindsay introduced a bill to prohibit the placing of a tollgate on any turnpike within the corporate limits of a city or town.

The House bill to make false swearing before a grand jury a felony, and to allow that body to disclose evidence taken by them was passed.

The McCain Tobacco bill passed the Senate by a vote of 22 yeas and no nays. Eight Senators refused to vote. An amendment of importance adopted was that which allows warehousemen to charge \$1.50 instead of \$1 for selling a hoghead of tobacco. Other amendments were adopted as follows: Allowing warehousemen to deduct only the exact weight of the hoghead and no sample in determining the weight of tobacco to be accounted for; providing that the weight of a hoghead be marked on its head, on the sample card, and in the sample book; making persons guilty of fraud liable for damages to the party aggrieved, as well as to punishment by fine; allowing the buyer to reject no hoghead unless a rejection has first been made by the seller and then no more than the seller rejects.

The Courier-Journal correspondent says: "Senator Poyntz offered an amendment to the bill, for Senator Alexander, which was promptly declared out of order. The amendment was to the effect that a landlord would not be allowed to charge the tenant more rent for tobacco land than one-half the cash value of the land.

The House has passed the bill which allows counties to levy a poll tax of \$1.50 and an ad valorem tax not to exceed 50 cents on the \$100 for the payment of current expenses, and debts incurred to meet current expenses.

The House in committee of the whole has adopted that section of the Revenue and Taxation bill creating the office of County Treasurer. It was so amended that the Treasurer shall be elected by the people instead of by the Fiscal Court, and the first elections shall be held November, 1893, and every four years thereafter. Considerable objection was urged against the creation of this office, as it was said that it would ruin the office of Sheriff. An amendment to the section was adopted, prescribing that the Sheriff shall collect the taxes in each county.

A bill is pending establishing a State Bureau of Information and Immigration. It is made the duty of the bureau to collect and disseminate statistics of Kentucky. The Board is also to list mineral, timber, agriculture and grazing lands for rent or for sale, and make a record of the prices and of the names of persons desiring immigrants. The Board is to consist of five persons appointed by the Governor to serve during the term of office.

## "A Breezy Time."

"A Breezy Time" will be the next attraction at the opera house. Thursday, March 10th, is the date. The company was at Parkersburg February 25th, and the Sentinel says: "There was an immense crowd present, every seat in the house being taken and standing room was at a premium, in fact it was by long odds the largest house of the season. E. B. Fitz and Kathryn Webster were a whole team, and every one of the sixteen people who took part were artists. The musical, specialty and novelty features were strictly first-class and the big audience was in a roar most of the evening."

## As Staple as Coffee.

"Chamberlain's Cough Remedy is as staple as coffee in this vicinity. It has done an immense amount of good since its introduction here."—A. M. Nordell, Maple Ridge, Minn. For sale by Power & Reynolds.

You can get the WEEKLY BULLETIN for only \$1.50 a year now. It gives the important news of the day—local, State and National. If you are not a subscriber send us the money and try it one year.

## They Call for a Division of the Spoils.

The Republican soldiers of Clayville precinct, Harrison County, think they and the rest of the veterans have been badly treated in the distribution of the "pie." They call for a division of the spoils hereafter, as is evidenced by the following resolutions which they have endorsed and which have been forwarded to the BULLETIN with a request to publish:

WHEREAS, The party in Kentucky is mainly composed of soldiers, their sons, brothers and other kin and connection, as was indicated in the State election last August when the Republican vote was 112,000, while Kentucky sent 98,000 men to the army.

AND WHEREAS, The soldier of this county is entirely unrepresented in the twelve important Government offices distributed to the party in the county.

AND WHEREAS, If it be true as we hear said that the soldier has no claim to preponderance in the party, it must be admitted he is at least entitled to his pro rata share according to vote.

Resolved, That we view with alarm and indignation the success which rings of "workers" make chattel of the eternal principles for which we have fought and for which our comrades laid down heroic lives; and that we protest against the further misuse of our votes and influence for selfish personal advantage, in which we have no interest and the party no profit.

Resolved, That every Republican voter is equally entitled to share in the councils and patronage of the party, wherefore we demand rotation in committees and positions of every grade and kind.

LADIES, Browning & Co. invite your attention to their stock of spring jackets, dress goods and hosiery. Read their advertisement.

The examining trial of Charles Gantz and Hiram Stewart charged with the murder of Simon Travis has not been finished yet. The arguments were commenced about 10 o'clock this morning.

MRS. PATRICK GUERIN died in Covington Thursday, aged about thirty years. Her remains were brought here, and the funeral took place this morning at St. Patrick's Church. Burial at Washington.

SERVICES at First Presbyterian Church to-morrow, morning and night at usual hours, conducted by pastor, Rev. John S. Hays, D. D. Consecration and roll-call at the Westminster League at 7 o'clock p. m. The night sermon at 7:30 p. m. All cordially invited to attend these services.

A BRANCH of the Chicago Retail Merchants' Commercial Agency has been organized at Flemingsburg.

THE infant son of Mr. and Mrs. Thomas Oldham died suddenly at Newport, aged one year and six months.

THE only specific in the world for pneumonia is Dr. Hale's Household Ointment. Get it at Power & Reynolds's.

THERE will be services to-night at the M. E. Church, also to-morrow at the usual hours. All are invited.

REV. S. B. ALDERSON has removed from Washington C. H., O., to Topeka Kan. His address is 819 Harrison street.

THE Limestone Building Association paid out \$6,682 dividends this week. Take stock in the new series commencing to-day.

JAMES S. KIRK & Co., of Chicago, offer through Kackley & McDougle, one box of their Shandon Bells soap for 50 cents, for introduction only.

THE City Council at Lexington has passed an ordinance making it a fine of \$100 a day for an itinerant physician to practice in that city.

THERE is lots of fun in "A Pair of Kids" and the audience at the opera house last night enjoyed the play. The attendance was not very large.

NOW is the time to buy pettery goods, china, glass, queensware, stoves and tinware at ruinous prices, as W. L. Thomas & Bro. are closing out their immense stock.

THE remains of Mr. Newman, father of Bruce Newman of this city, were brought in from Lexington last night and taken to Mt. Olivet this morning for burial.

THE Sardis Turnpike Company has declared a dividend of 3 per cent. The stockholders can get their money by calling on H. M. Pyles, Secretary and Treasurer, at Sardis.

A LARGE lot of fresh cut golden russett oranges, sweet and juicy. Fancy bright oranges, Malaga grapes, shelled almonds and fancy roasted shelled peanuts.

THE people have an opportunity to buy goods of W. L. Thomas & Brother at lower prices than ever offered before. The stock must go, as they have to give up their store room in a very short time.

THE place to buy is where you can buy the cheapest. Now, I will guarantee that my prices are lower than other houses charge for same goods.

MURPHY, the Jeweler, 4th Successor to Hopper & Murphy.

REV. MR. WATTS, of Kansas City, Mo., will fill the pulpit of the M. E. Church, South, at the court house to-morrow morning and evening in the absence of the pastor, who is doing missionary work in the mountains of Eastern Kentucky.

## THE HARRIS FUEL GAS.

Something About the Display at the Works in the West End Yesterday.

A large crowd visited the fuel gas plant in the West End yesterday afternoon and witnessed the display. The works are operated now by Mr. Will January and Mr. Dan Daly, with Professor Payne as chemist. Mr. Daly represents the American Gas Company and Mr. January the Southern Fuel Company.

Among the visitors were a couple of gentlemen from Indiana, one of them from Connersville. They are interested in the company in that State and were greatly pleased with the test. Mr. Arthur Curran of the Dover News was present, and said the display was a revelation to him. It was the first time he had seen the plant in operation. Others were equally surprised at the rapidity with which the gas was manufactured. Several ladies were among the visitors.

In one of the tests yesterday afternoon 4,000 feet of gas was made and put into the holder in less than four minutes by the watch. This gas, freshly made and without having been washed, was turned into stoves—heating and cooking—and lamps were lighted. The lamps resembled an incandescent electric light. The pieces of fire brick used in the heating stove can be made red hot with the gas in a few minutes.

The test yesterday was very satisfactory in every respect. The work of piping Maysville will be commenced about the first of April.

REV. B. W. MEDANE has about recovered from his recent sickness and will conduct services at the Central Presbyterian Church to-morrow at 11 a. m. and 7 p. m. All cordially invited.

MR. C. F. ZWIGART, Jr., through Mr. A. M. Campbell agent, sold yesterday to Mr. John Dersch the lot on the northwest corner of Second and Short streets for \$1,850 cash. The lot is 48x75 feet in size.

DON'T forget the day of the sale of D. Hechinger's suburban farm. It takes place on Tuesday next, the 8th. Mr. Hechinger informs us that several nice horses will also be offered for sale on the premises.

WARDEN DYER's annual report shows the cost of conducting the Ohio Penitentiary during the past year to have been \$230,021.32. The receipts, from all sources, footed up \$241,178.84, leaving a net profit during year of \$11,157.52.

REV. C. S. LUCAS, pastor of the Christian Church, will resume his sermons on the history of the church to-morrow night. Subject: "The Reformation and the Churches of the Reformation." Preaching also at 11 a. m. All invited.

BEING compelled to give up their store room about the first of March, W. L. Thomas & Brother have made a still further reduction in their prices and are now offering any thing in their immense stock at prices never before offered in this market.

EX-POSTMASTER RESSER, who has returned from a business trip to New York, is firmly of the opinion that if the Democrats nominate either Hill or Cleveland for President they will lose the Empire State next fall. He says the bitter feeling between the two factions is intense. Get on an elevated street car and you can't go two squares without witnessing a wrangle between Hill and Cleveland men. He thinks if either is nominated, however, it should be Cleveland, as he is the only one who has an enthusiastic following among the people. The politicians are for Hill.

OWEN COUNTY Magistrates, like those of Fleming, have no fear of the new Constitution before their eyes, and have exceeded the poll-tax limit. The Owen News says: "How about the authority to levy any poll-tax at all until authorized to do so by the Legislature. The new Constitution says: 'The General Assembly may authorize the counties, cities or towns to levy a poll-tax not exceeding one dollar and fifty cents per head.' Owen County Court of Commissioners has levied \$2.50 poll-tax. As there seems to be no authority for it, a refusal of the tax-payer to pay it might, if enforced by the officer, involve the county in no little trouble."

RICHARD T. STOCKTON, a native of Flemingsburg, and County Clerk of Fleming County for several years in his early manhood, died a few days since at his home in Mexico, Mo., aged seventy-five years. He was City Weigher at Mexico at the time of his death, having held the position for several years. His wife, one daughter and four sons survive him. The Intelligence says: "Mr. Stockton was a man of excellent character, his kind and sympathetic nature making for him friends of all who knew him. He was possessed of a gentility and sweet tempered courtesy which at once made a lasting impression upon you. He was so at all times and under all circumstances."

## For the Farmer.

Eight hundred hogsheads of tobacco were shipped from Dover over the C. and O. last year to Cincinnati and Louisville. About 600 hogsheads went by river.—Dover News.

A noticeable and unusual peculiarity marks the report of statistician Dodge, of the Department of Agriculture, on the crops of last year. It is the almost universal occurrence of medium or large production. Ordinarily a large yield of one crop is offset by a diminished product of another. Last year was an exception of nearly universal abundance.

Says the Flemingsburg Times-Democrat: "More tobacco has been sold and delivered up to this time than we ever knew in any previous year. John and Sam Burke, who bought the Elder Jos. C. Frank farm, hold the banner as tobacco growers for 1891. On 8 acres of land they raised 17,295 pounds, or 2,162 pounds per acre. This they sold to Sausley Bros at 10¢ cents, realizing \$1,806.52. This for the size of the crop is ahead of any we have heard of."

The Breeders' Gazette very sensibly remarks: "When producers of 'scrub' cattle can show yearling steers weighing 1,500 pounds and two-year-olds weighing 2,000 pounds (as feeders of pure-bred and high grade bullocks have done) it will be time enough to talk of substituting slow maturing natives for good cattle throughout the great beef-making regions of America. All the world knows that the profit in cattle-feeding nowadays is to be found in crowding the calves to ripeness at the earliest possible age."

## River News.

Captain John E. Edgington, formerly clerk on the steamer M. P. Wells, is now running as pilot on the Bonanza.

The Bonanza and Scotia are the Sunday packets for Cincinnati.

The Bonanza will pass up at 9 p. m. to-night for Portsmouth and the City of Madison for Pomeroy and Hudson for Pittsburgh at midnight.

The new Cincinnati and Pittsburgh packet Iron Queen will take the Scotia's days and the Scotia will take the days formerly taken by the Batchelor. The new boat will be out about March 20th.

The new steamer Telegraph is setting the pins for the other Pomeroy packets. She is proving very fast. On a down trip a few days ago she ran from Ripley to Cincinnati in three hours and ten minutes, making two landings.

Stephen H. Ballard, one of the old stock of engineers, died at Ripley, Thursday, of paralysis, aged sixty-eight years. He was engineer of the first Scioto in the Portsmouth trade. He was afterward with Captain Wash Honshell for thirty-seven years in the Pomeroy and Big Sandy.

## Here and There.

Mrs. Ed. McCreary, of Flemingsburg, visited friends here yesterday.

Mrs. Bliss, of Detroit, is the guest of Dr. and Mrs. Jno. T. Fleming.

Miss Lillie Christopher and Miss Keene are spending a few days with Miss Emma Geisel.

Mrs. Frank Kennan and son, of Orangeburg, are guests of Mr. and Mrs. R. A. Toup.

Mr. J. L. Goodman, of Shelby County, is visiting his brother, Mr. B. W. Goodman, of this city.

Miss Woart, of Boston, is the guest of Mrs. Laura Collins, of Sutton street. She is en route home from California, where she spent the winter.

## Railway News.

There are 747 roads now operated in this country and their net income last year was over \$100,000,000.

Says the Portsmouth Tribune: "John J. Archer, Division Freight and Passenger Agent of the Norfolk and Western, was interviewed recently and thinks the day is not very far distant when the N. and W. will build down the north bank of the river to Cincinnati. He says it would undoubtedly be a paying road, as it would get all the traffic on the north side of the river which now goes to the C. and O., and a great deal more which would undoubtedly be created by such a road."

## The Gault Sale.

The sale of the personality of the late James Gault near Washington Thursday attracted a large crowd. Auctioneer Goggin reports the following as the result: 1 mow, \$20; 1 reaper, \$96; 1 wagon, \$20; 8 shares in Clarks Run turnpike, \$78; 3 sows, \$25.25; 1 male hog, \$4; 30 shoats, \$83.50; 18 sheep, \$135; 10 cows, \$370; 3 two-year-old steers, \$134.75; 1 steer, \$31.25; 3 yearling steers, \$77; 2 heifers, \$31; 2 small calves, \$26.50; 5 heifers, \$50; 1 colt, \$48; 2 old horses, \$45; 1 small colt, \$20; 2 cows, \$37.70; 8 hogs, \$32; 4 work mules \$308; 5 three-year-old colts, \$332; 1 horse, \$171; 500 bushels corn, \$235; rye 35 to 47 cents bushel; 7 stacks hay, \$84.

## Call and Get Your Dividends.

Those entitled to dividends in the Limestone Building Association can get them by calling at the First National Bank, with books.

NOAH PORTER, OF YALE, DEAD.

The Eminent Scholar and Educator Called Away at Eighty.

NEW HAVEN, March 5.—Noah Porter, D. D., LL. D., formerly president of Yale college and Clark, professor of moral philosophy and metaphysics, died at his home in this city at 3:10 o'clock yesterday morning. He was eighty years old. On Dec. 1 he suffered from an attack of influenza from which he never rallied. At many periods during the last few months he was in a critical condition. Thursday evening he showed distinct signs of failure, and from 8 o'clock until the end came he sank very rapidly. He was unconscious during most of the time. Two daughters survive him.

Noah Porter was born in Farmington, Conn., Dec. 14, 1811, was graduated at Yale in 1831, became master of Hopkins' grammar school in New Haven and was tutor at Yale in 1833-5, during which time he studied theology. He was pastor of Congregational churches in New Milford, Conn., from 1836 till 1843, and in Springfield, Mass., from 1843 till 1846. Mr. Porter was then appointed professor of moral philosophy and metaphysics at Yale. In 1871 he succeeded Theodore D. Woolsey as president of Yale, which post he held till his resignation in 1888. During President Porter's administration the progress of the college was marked. Some of its finest buildings were erected in this period, including the art school, the Peabody museum, the new theological halls, the Sloan physical laboratory, the Battell chapel and one of the largest dormitories. The curriculum was also considerably enlarged, especially by the introduction of new elective studies, although Dr. Porter was an earnest champion of a required course, as opposed to the elective system as it has been recently elaborated at Harvard. He also ably maintained the claims of the classes to a chief place in a liberal course of education. As an instructor and in his personal relations with the students he was one of the most popular presidents of Yale. He is probably the last to hold the presidency and a professor's chair at the same time, as his successor, Timothy Dwight, expressly stipulated on accepting the office that the duties of a teacher should not attach to it. He received a degree of D. D. from the University of the city of New York in 1858, and that of LL. D. from Edinburgh in 1886 and also from the Western Reserve college, Ohio, in 1870, and from Trinity in 1871. He is the author of an "Historical Discourse at Farmington, Nov. 4, 1840," commencing the 200th anniversary of its settlement (Hartford, 1841); "The Educational Systems of the Puritans and Jesuits Compared," a prize essay (New York, 1851); "The Human Intellect," which is used as a text-book of metaphysics at Yale and elsewhere (1868, many new editions); "Books and Reading," (1870); "American Colleges and the American Public" (New Haven, 1871), and numerous other educational works.

ENDED IN A FAILURE.

The Attempt to Satisfactorily Settle the Behring Sea Controversy.

WASHINGTON, March 5.—Lord Salisbury's approval of the treaty of arbitration of matters connected with the controverted claims of jurisdiction over the Behring sea, which was signed last Monday was coupled with an apparently inconsistent action respecting the modus vivendi arranged by the two countries last year. On Tuesday the state department was notified that the British government would not consent to a renewal of the modus vivendi of 1891 for this year, an arrangement which it had been confidently expected by the United States authorities would be speedily reached and in time to be effective against the seal poachers this season. Instead, however, Lord Salisbury announced his willingness to establish a closed zone of thirty miles width, surrounding the Pribyloff islands. The receipt of this communication doubtless hastened the conclusion of the session of the Behring sea agents, which ended Thursday night in failure. This government does not regard the zone idea as practicable.

A Stupendous Electric Project.

CHICAGO, March 5.—A morning paper says: The Siemens & Halske Electric company, of Berlin, the largest electric company in the world, is about to locate in Chicago, making this the center of extensive operations throughout the United States. Articles of incorporation have been filed with the secretary of state at Springfield by the men acting as attorneys for the company, and it is said the magnitude of the work contemplated will be far greater than the combined Edison and Thompson-Houston companies.

Only Wanted His Children.

MADISON, Ind., March 5.—J. W. Pullam, of Adams county, O., after a pursuit covering several days, traced his runaway wife to this city, and found her in company of William Wood, of the same place. Wood deserted his own family, bringing one child with him, and Mrs. Pullam carried off her two little boys. Although Pullam was armed, he contented himself with reclaiming his children and starting immediately upon the return home.

Harrison Delegates Selected.

OKLAHOMA CITY, O. T., March 5.—The Republican territorial convention met Thursday and elected Governor Seay and D. W. Marquart delegates to the Republican national convention. They were instructed to vote for the renomination of President Harrison.

A Chinaman's Peril.

NEW YORK, March 5.—A Chinaman was roughly handled by a mob of angry Italians last night, and but for the police interference might have been killed. He is Ah Juh, a laundryman, at 275 Elizabeth street. He is accused of having attempted to assault a ten-year-old Italian girl, Amelia Menola. He was finally locked up.

OUR NEIGHBORS.

FERN LEAF.

The wedding bells of Hebron Church, near here, pealed forth melodiously on Wednesday, March 2nd. At the altar stood Mr. C. F. Wallingford and Miss Fannie B. Wood, surrounded by a host of friends and relatives. Rev. John Reeves, officiating, pronounced the words that made the happy couple man and wife. The bride and groom are residents of Fern Leaf, and the wedding was one of the prettiest and most impressive ever celebrated in this community. Mrs. Wallingford was attired in a beautiful white albatross on train, with lace trimmings and wore natural flowers and the bride's veil of crepe de chine. The wedding march was rendered in a most artistic manner by Miss Lida Morrison. The bridesmaids were in black silk. Miss Lettie Wood and W. H. Morrison acted as attendants. Stewart Wallingford and Gordon Ashby gracefully ushered in the wedding guests. The joyful pair departed amidst a perfect shower of good wishes, rice and old shoes, to spend their honeymoon in Cincinnati and other Western cities. Among the many presents we noticed the following: silver knives and forks from R. W. Wood and wife; silver table and teaspoons from bride's mother; handsome clock and Bible from bride's father; chamber set from Mrs. Powell Owens; set china from Mr. and Mrs. E. T. Reese; handsome lamp from Misses Linale and Lizzie Wallingford; handsome oil painting from Mrs. A. M. Wood; silver spoon holder with gold trimmings from Josh Owens.

IN MEMORIAM.

Died, in Newport, suddenly, Martin V., the bright little son of Mr. and Mrs. Thomas Oldham, aged one year and six months.

In this world of care and pain,  
Lord, thou wouldst no longer leave him;  
To the sunny, heavenly plain  
Thou dost now lovingly receive him.  
(Clothed in robes of spotless white,  
Now it dwells with thee in light.)

CARRIE O.

Near Washington, Penn., People

Are not slow about taking hold of a new thing, if the article has merit. A few months ago D. Byers, of that place, bought his first stock of Chamberlain's Cough Remedy. He sold it all and ordered more. He says: "It has given the best of satisfaction. I have warranted every bottle, and have not had one to come back." Twenty-five-cent, 50-cent and \$1 bottles for sale by Power & Reynolds.

THE MARKETS.

LAMBS—Common to fair, \$1.25@5.00; good to choice, \$5.25@6. Market lower.

Cincinnati Tobacco Market.

(Thursday.)

The breaks were the largest ever known in this market, and two houses, the Cincinnati and Walker, had no sales. There was not as much activity shown as heretofore, and sales were not generally satisfactory. The offerings were composed largely of the lower grades, 50 per cent. being of this kind. Old common trash, fags and nondescripts were not as firm as noted in previous reports, but are still bringing good prices. Common leaf and red tobacco are easy. What few hogsheads of better grades were shown brought full prices. While there was a firm steady market for all grades of new, the demand was not active as noted heretofore.

Of the 562 hds (old) 28 sold from \$1.50 to \$3.95, 111 from \$1 to \$3.35, 188 from \$5 to \$7.90, 86 from \$8 to \$2.55, 86 from \$10 to \$14.75, 31 from \$15 to \$19 and 2 at \$20 to \$21.25.

Of the 388 hds (new) 36 sold from \$1.45 to \$3.95, 111 from \$4.00 to \$3.95, 157 from \$6 to \$7.95, 46 from \$8 to \$9.55, 30 from \$10 to \$14.75, 8 from \$15 to \$19.50 and 1 at \$21.25.

Pork Packing and Provisions.

[Cincinnati Price Current, March 3.]

The winter packing season closed on Monday, and the Price Current has made special effort to present at this time a clear and complete picture of the entire packing in the West during the four months ending March 1.

With a justifiable estimate for Chicago, definite or nearly exact figures for all other points of prominence, and returns from a large proportion of the minor places, the whole representing over 95 per cent. of the aggregate packing, the indicated total for the season is 7,750,000 hogs, against 8,175,000 last year—a decrease of about 425,000. It is not practicable to make a comparison in regard to average weight of hogs—the indications favor a moderate increase, possibly 3 to 5 per cent., compared with last year. The total manufacture of product will closely approach last year's production.

The total packing for the week has been about 180,000 hogs, against 275,000 last year.

In the provision trade there has been only moderate speculative activity, but a good movement of product for consuming districts, and fairly good export clearances, although short of corresponding time last year in both meats and lard. Holders are not urging product on the market at current values, and the trade in lard is inclined to anticipate future necessities. Advances from British markets are suggestive of a good business being realized and considerable confidence on the basis of present values.
